

# KUMBA IRON ORE

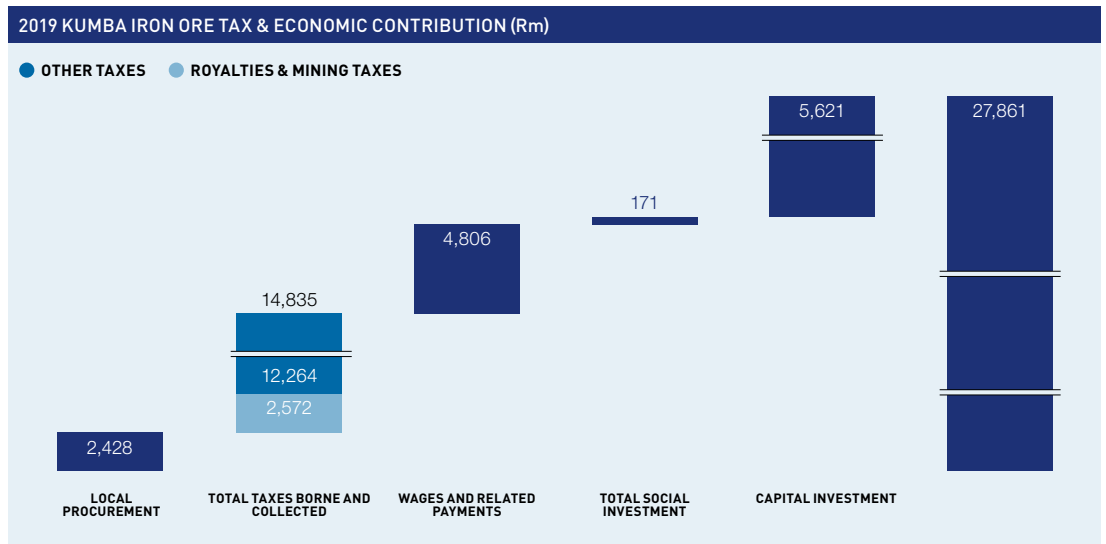

Inspired by our purpose to re-imagine mining to improve people's lives, we are committed to ensuring beneficial co-existence with host communities and to working collaboratively with our suppliers, communities and partners to ensure the development of thriving, healthy and inclusive communities beyond mining. In striving to ensure that our host communities are sustainable beyond life-of-mine, we place an emphasis on progressively increasing levels of procurement from localised suppliers, supported by our supplier and enterprise development initiatives.

 people benefit through jobs and skills development programmes

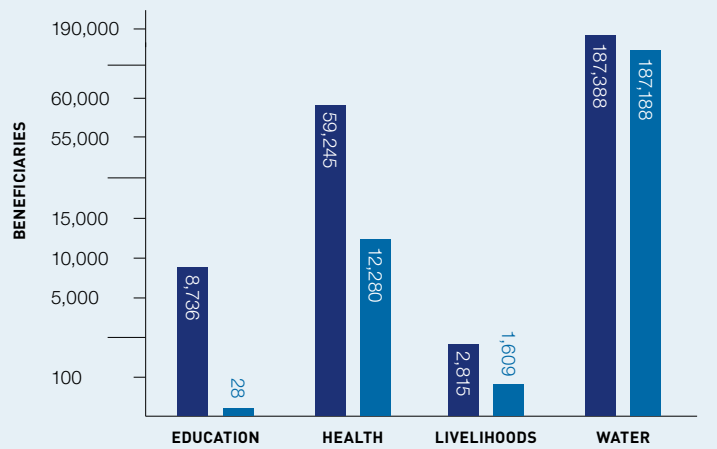

**WATER**  
**>290,700**  
 people provided with water

## ASSET BREAKDOWN

### SISHEN

### KOLOMELA

\* Estimated number of beneficiaries from our socio-economic initiatives.

## ACTIONS IDENTIFIED FOR SUPPORTING THE RESPONSE TO COVID-19

In South Africa, Anglo American is working to identify additional actions to support communities in the response to COVID-19 during lockdown and beyond. We have committed ZAR100m to our COVID-19 response and will update our contributions regularly. Kumba Iron Ore's contribution to the COVID-19 response includes:

Partnering with the Department of Health to identify suitable isolation and quarantine facilities and equipping them to the required specifications

Providing critical medical equipment such as masks, thermometers, surgical gloves, additional beds and tent structures at the Postmasburg Hospital in the Northern Cape

Handing over personal thermometers to all employees to self-monitor themselves before leaving their homes and frequently whilst at work

Our Ulysses Gogi Modise (UGM) Primary Healthcare Centre is open to the public and is providing much-needed healthcare services and testing, assisting government with emergency medical response (EMR) through the provision of six ambulances in the Northern Cape

Assisting government to curb the spread of COVID-19 through the provisioning of hygiene products and availing healthcare facilities (such as company-owned hospitals) during this period for self-isolation and mandatory quarantine cases

Implemented care centres for telephonic support and referral to appropriate on-mine screening and testing facilities
